"Financial Assistance to facilitate community level action for growth of agriculture and for preparing conservation management plan of community forest resources, i.e. Sheti Samrudhi Yojana".

1. *Introduction.*— (a) Tribal population of Goa is predominantly dependent on the agriculture for their livelihood. Considering that nearly 70 percent of tribal population live in remote villages dependent on agriculture and marginal forest produce, agricultural growth will be the engine of broad-based economic growth and development with food security, poverty alleviation, conservation of forest and natural resources. Therefore there is a need to mobilize the best of science and development efforts including traditional knowledge and modern scientific approach through partnerships involving national and international research institutions, NGOs, farmers' organizations and private sector in order to tackle the present and future problems of food security and production.

(b) Small and marginal farmers amongst tribal population mostly working in group can collectively cultivate the land which increases the efficiency per acre of the land. They also need to be provided with all the agriculture extension services like inputs, market information and processing units, farm machinery and all latest techniques, crop rotation of paddy with vegetable and pulses by applying organic fertilizers and diversifying them with other allied agricultural activities like dairy, vermi-composting, honeybee keeping etc. Farmers need clerical assistance to avail

various schemes of the Department of Agriculture, Horticulture, Animal Husbandry, Water Resources Department available for the development and growth of agriculture. Thus requires facilitating and supporting community level action to private voluntary organizations, including farmers groups aimed at improving food security, reducing poverty, and assuring sustainability in the management of natural resources.
